EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Roger Fulghum on 1/26/06.

2. The application has been amended as follows:

Claims 12-14 have been cancelled.

3. The following is an examiner's statement of reasons for allowance:

While O'Connor teaches a system that performs hardware verification in a build to order computer system, Huang et al teaches design verification and providing a physical layout of hardware, and Chari et al (U.S. Pat 6,711,645 and 6,134,614) teaches a graphical interface for displaying installation slots for hardware components, none of these references taken either alone or in combination with the prior art of record disclose a method for installing hardware cards in an installation slot in a motherboard of a computer system, specifically including:

"displaying in graphical form the assigned installation slots of the hardware cards following a successful evaluation of the compatibility of the hardware cards with respect to (a) the other hardware cards of the computer system and (b) the base architecture of the computer system", in combination with the remaining elements and features of the claimed invention. It is for these reasons that the applicant's invention defines over the prior art of record.
